

ZR10 Firmware Update Log

Date: 2026-01-22

Camera Firmware Version: 0.3.9

Gimbal Firmware Version: 0.4.3

Update content:

New Features:

1. Support for MAVLink absolute zoom function, compatible with Mission Planner waypoint planning scenarios.

Bug Fixed:

1. Fixed an issue where the AI Follow function could not be disabled properly.
 2. Fixed an issue where the system did not return the correct response when formatting an SD card using an external SDK.
 3. Fixed an issue where retrieving 10,000 photos via URL failed.
 4. Fixed an issue where video files were corrupted after switching to H.264 encoding.
 5. Fixed command conflict between S.Bus channel gimbal control and UniGCS ground station gimbal control.
 6. Other known issues have been fixed.
