

ZT6 UPDATE RECORD

Date:	June.6, 2026
Gimbal Firmware Version:	0.2.4
Camera Firmware Version:	0.2.1

Update Content:

Added New Functions:

1. Added support for absolute zoom control via the MAVLINK protocol.
2. Added external SDK support for getting and setting the synchronized zoom (link zoom) function.
3. Added support for TCP communication mode in the SDK protocol.

Bug Fixes:

1. Fixed anomalies related to the synchronized zoom function.
 2. Fixed an issue where formatted files remained visible in the file list after formatting the SD card.
 3. Fixed an issue where the external SDK returned incorrect values when retrieving zoom data.
